

ABOUT ME

Ambitious and detail-oriented graduate in Software Engineering from Vilnius Tech University, with hands-on experience in IT system administration, programming, and teamwork across various industries. Strong technical foundation in C++, C#, and HTML, with practical knowledge in server administration, system monitoring (Zabbix), and virtualization (VMware). Currently planning to pursue a Master's degree in Artificial Intelligence Solutions Management, aiming to deepen expertise in intelligent systems and real-world AI applications. Passionate about continuous learning, solving complex problems, and driving innovation through technology.
